

## 1) Fees for transactions -

Transaction fees is charged on each deposit and withdrawal

If you have autowithdrawal in place the fees will be taken once when the deposit arrives and once when autowithdrawal is sent.

AYA - 1 AYA Platform fees , along with 0.001 Aya Network Fees

DOGE - 2 Doge Platform fees , along with 1 Doge Network Fees

BTC - 0.01% Platform Fees , along with 0.00004 Btc network Fees

LTC - 0.01% Platform Fees , along with 0.000257 network fees

## 2) How to remove autowithdrawal addresses ?

Just remove the autowithdrawal address from the designated text box and when you click save it should be removed.

## 3) Do you support Google 2FA ?

Yes you can find the QR code for Google2FA in the Account Settings section.

## 4) API -

The whole deposited amount is shown in the ipn response for each transaction (Fees amount is not reduced in the ipn response)

On withdrawal using api , the response will contain the reduced amount ( Fees + network fees deducted and then shown)
